
AMPLIFY RETREAT

AUGUST 2020

We'll celebrate the hard work and growth that took place over the summer with a campout!

COVID-19 means we have to do things a bit differently, but we can still get away together!

Big changes to note: food and tenting will happen by family/"bubble" rather than communally. This means siblings will share a tent, and each household is responsible to plan and bring their own food and cooking supplies.

Our group will have designated bathroom and shower facilities, and will use the same daily cleaning protocols that the Summer Staff team have been adhering to throughout the summer at our campuses.
